The Alterna™ range offers a latex free reusable solution designed to be reprocessed

Intersurgical's range of reusable anaesthetic consumables builds on our core principles of quality, innovation and choice by complementing our existing range of respiratory products. For those seeking a reusable solution to their respiratory product requirements, Alterna offers a comprehensive range of anaesthetic face masks, reservoir bags, connectors and breathing system accessories. All products within the Alterna range are designed to be reprocessed.

All products listed in this catalogue are latex-free.

Anatomical anaesthetic face masks – reprocessable

This latex-free, anatomical range of masks provides a solution for those requiring reliable, high performing synthetic products in the area of anaesthetic consumables. Manufactured from chloroprene, a synthetic material with similar attributes to natural rubber (NRL) but without the associated danger of Type 1 (protein) allergies, the masks are fully autoclavable up to a maximum temperature of 137 °C, and have an anatomical shape and inflatable cuff. The masks also include a plug that allows for cuff inflation and deflation as required.

Code	Description	Box Qty.
8926000	Anatomical, anaesthetic face mask, size 6, extra large adult, 22F	1
8826000	Anatomical, anaesthetic face mask, size 6, extra large adult, with hook ring, 22F	1
8925000	Anatomical, anaesthetic face mask, size 5, large adult, 22F	1
8825000	Anatomical, anaesthetic face mask, size 5, large adult, with hook ring, 22F	1
8924000	Anatomical, anaesthetic face mask, size 4, medium adult, 22F	1
8824000	Anatomical, anaesthetic face mask, size 4, medium adult, with hook ring, 22F	1
8923000	Anatomical, anaesthetic face mask, size 3, small adult, 22F	1
8823000	Anatomical, anaesthetic face mask, size 3, small adult, with hook ring, 22F	1
8922000	Anatomical, anaesthetic face mask, size 2, paediatric, 22F	1
8822000	Anatomical, anaesthetic face mask, size 2, paediatric, with hook ring, 22F	1
8921000	Anatomical, anaesthetic face mask, size 1, infant, 22F	1
8821000	Anatomical, anaesthetic face mask, size 1, infant, with hook ring, 22F	1
8920000	Anatomical, anaesthetic face mask, size 0, neonatal, 22F	1
8820000	Anatomical, anaesthetic face mask, size 0, neonatal, with hook ring, 22F	1

ClearFlex™ silicone anaesthetic face masks – reprocessable

ClearFlex masks are manufactured from silicone and incorporate a traditional anatomical shape with good patient visibility. Autoclavable up to a maximum of 137 °C, the silicone material used means that the range is totally latex free, and is ideal for use with neonates, paediatrics and adults.

Code	Description	Box Qty.
8749006	ClearFlex, silicone anaesthetic face mask, size 6, extra large adult, 22F	1
8749005	ClearFlex, silicone anaesthetic face mask, size 5, large adult, 22F	1
8749004	ClearFlex, silicone anaesthetic face mask, size 4, medium adult, 22F	1
8749003	ClearFlex, silicone anaesthetic face mask, size 3, small adult, 22F	1
8749002	ClearFlex, silicone anaesthetic face mask, size 2, paediatric, 22F	1
8749001	ClearFlex, silicone anaesthetic face mask, size 1, infant, 22F	1
8749000	ClearFlex, silicone anaesthetic face mask, size 0, neonatal, 22F	1

ClearFlex™ economy silicone anaesthetic face masks – reprocessable

ClearFlex Economy masks are a lower cost alternative for those looking for the benefits gained from a latex-free silicone mask.

The masks incorporate an integral standard connector with a proven anatomical design. The clear design ensures excellent clarity; this means optimum visibility through the mask. The smaller sizes have a cylindrical shape to assist in establishing and maintaining an airtight seal with infants and neonates.

They are autoclavable up to a maximum temperature of 137 °C.

Code	Description	Box Qty.
8848005	ClearFlex economy silicone, anaesthetic face mask, size 5, large adult, 22F	5
8848004	ClearFlex economy silicone, anaesthetic face mask, size 4, medium adult, 22F	5
8848003	ClearFlex economy silicone, anaesthetic face mask, size 3, small adult, 22F	5
8848002	ClearFlex economy silicone, anaesthetic face mask, size 2, paediatric, no hook ring, 22F	5
8848001	ClearFlex economy silicone, anaesthetic face mask, size 1, infant, no hook ring, 15M	5
8848000	ClearFlex economy silicone, anaesthetic face mask, size 0, neonatal, no hook ring, 15M	5
8848006	ClearFlex economy silicone, anaesthetic face mask, size 00, premature, no hook ring, 15M	5

Rendell Baker silicone anaesthetic face masks – reprocessable

A range of latex-free silicone anatomical shaped masks designed in accordance with Rendell Baker specifications, ideal for paediatric use, as a gas tight seal can be achieved with only minimal pressure.

The masks have the advantage of a low deadspace and can be steam sterilised up to temperatures of 137 °C.

Code	Description	Box Qty.
8748014	Rendell Baker silicone, anaesthetic face mask, size 3, paediatric, 22F	1
8748013	Rendell Baker silicone, anaesthetic face mask, size 2, small paediatric, 22F	1
8748012	Rendell Baker silicone, anaesthetic face mask, size 1, infant, 22F	1
8748011	Rendell Baker silicone, anaesthetic face mask, size 0, neonatal, 22F	1

Face mask accessories

Adult and paediatric silicone harnesses and a hook ring to fit our range of Alterna™ face masks.

Code	Description	Box Qty.
8740007	4-point silicone head harness, large	12
8740008	4-point silicone head harness, small	12
8724013	Hook Ring for anatomical reprocessable anaesthetic face masks	1

Clear silicone breathing systems and tubes – reprocessable

Our clear silicone tubing has a unique feature: the graduated spiral design forms an integral elastomeric end connector. This avoids the weakness often inherent in standard silicone tubing at the weld point between the tubing and the connector.
